

ACTIONS

Ford & King

- Assess vacant land around key anchors for strategic land assembly.

- Create garden districts for urban agriculture in areas with abundant vacant land.

- Assess soil quality and square footage to determine urban farm feasibility.

Third & Fairway/Levi Library

- Assess soil quality and square footage to determine urban farm feasibility.

- Assess vacant land around key anchors for strategic land assembly.

- Create garden districts for urban agriculture in areas with abundant vacant land.

Third & Weaver

- Assess soil quality and square footage to determine urban farm feasibility.

- Assess vacant land around key anchors for strategic land assembly.

- Create garden districts for urban agriculture in areas with abundant vacant land.

Third & Ford

- Upgrade facades in anchor areas by integrating community art and culture.

- Partner with local churches, neighborhood groups and residents for neighborhood cleanup days.

- Support the creation of community business associations.

- Introduce medians, bump outs, and other forms of traffic calming measures.

- Retrofit streets and connect broken links to increase connectivity

Third & Raines

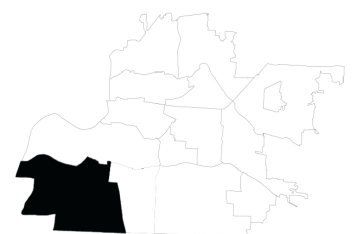

- Decrease block size by introducing greenways and small scale development.

- Identify temporary alternate uses for vacant land such as urban forestry/agriculture, parks, open space or interim uses.

- Support community organizations in assembling land for redevelopment.

PRIORITIES

- Strategically address blight and vacancy through land assembly with infill development, agricultural uses, and recreational uses
- Improve pedestrian and cyclist infrastructure to increase accessibility and support multi-modal transportation options
- Address flooding and stormwater issues throughout the district
- Encourage active code enforcement around commercial centers and civic assets
